PROFILE

Third-year Computer Science student at the National University of Science and Technology seeking industrial attachment in software development or a related technical field. Over the past year I have built several full-stack web and mobile applications from concept to deployment, working across Python, JavaScript, React, Django, Flutter, and SQL on systems that address real problems in Zimbabwe's financial, agricultural, real estate, and industrial sectors. I want to take that practical foundation into a professional environment where the work is more demanding, the feedback loop is tighter, and the team around me has experience I can learn from.

EDUCATION

Ordinary Level Certificate	2021
5 A's, 6 B's, 2 C's, including Mathematics and English Language	
Advanced Level Certificate	2023
Pure Mathematics: A Statistics: A Geography: A Computer Science: A	
Bachelor of Science in Computer Science	2024 – Present
National University of Science and Technology, Bulawayo, Zimbabwe	
Relevant Coursework: Data Structures and Algorithms, Web Development, Database Systems, Operating Systems, Networking, Object-Oriented Programming, Software Project Management, Mobile Application Development, Computer Ethics	

SKILLS

Programming Languages: Python, Java, JavaScript, SQL, HTML, CSS
Frameworks and Libraries: React, Django, Flutter
Databases: PostgreSQL, MySQL, Supabase
Tools and Version Control: Git, GitHub
Skills listed reflect academic and project-based exposure at student level.

PERSONAL ATTRIBUTES

Can work independently and in teams: Able to take ownership of individual work while also contributing effectively within a group setting.
Picks up unfamiliar tools quickly: Comfortable approaching new technologies outside formal instruction when a task requires it.
Manages time across multiple commitments: Able to balance academic responsibilities alongside other ongoing work.
Attentive to real-world context: Focused on understanding the practical problem behind any technical task.

CERTIFICATIONS

CCNA: Introduction to Networks	Cisco Networking Academy, 2026
Cisco Systems	
Python Essentials 1	Cisco Networking Academy, 2026
Cisco Systems — Python Institute	
JavaScript Essentials 1	Cisco Networking Academy, 2026
Cisco Systems — JS Institute	

LANGUAGES

English: Professional | Shona: Native

PROJECTS

Batana: Financial Inclusion Platform	2026
Full-Stack Development TypeScript, React, NodeJS	
A platform connecting underbanked users to financial services through a simplified, accessible interface.	
PropVerifyZW: Verified Real Estate Marketplace	2025
Full-Stack Development HTML, CSS, JavaScript	
A marketplace built to verify property listings before publication, reducing fraud risk for buyers.	
NhimbeAI: Agricultural Knowledge Platform	2025
Full-Stack Development JavaScript, REST API, LLM Integration	
An LLM-powered platform giving farmers accessible answers to agricultural questions in plain language.
